## 年轻时候受到中国哲学的影响

我是德裔，在加拿大渥太华出生和长大。我会说流利的德语，在德国有朋友和家人。

作为一名教师，我相信学习如何成为一个好学生是非常重要的。我对传统训练的第一次尝试是学习钢琴，从那时起一直试图理解这一过程。

年轻时候受到中国哲学的影响，我知道在某种程度上学习这伟大文化是非常重要的第一步，这使我学习中国武术，然后是书法。。

Having been influenced by Chinese philosophy at a young age

My origin is German but I was born and raised in Ottawa, Canada. I speak German fluently and have friends and family in Germany.

As a teacher, I believe it is incredibly important to learn how to be a good student. My first taste of traditional training was in learning the piano, and I have been trying to understand that process ever since.

Having been influenced by Chinese philosophy at a young age, I knew it would be a very important step to learn from that great culture at some point. This led me to study Chinese martial arts, and then calligraphy.
